

India Cements

# HALO

## SUPER KING

**QUICK  
SETTING TIME  
FOR PREMIUM  
HOLLOW BLOCKS**

Halo Super King, from the house of India Cements, is a special grade hollow block cement with a unique formulation that enables both superior structural strength and rapid hardening for all precast blocks based construction.

India Cements

HSK, filled with the purest silicates and "Best in Class" consistency of 75 years, is a one stop solution for all specialised requirements from AAC to Hollow blocks.

## STRENGTHS

### EASY WORKABILITY

>160 mins\*

Initial Setting Time

### QUICK SETTING TIME

70% faster\*

Final Setting Time

### LOW HEAT OF HYDRATION

50% less\*

Heat Generated

### CRACK RESISTANT

10% more\*

Fineness

90% less\*

Soundness

### NO PORE FORMATION

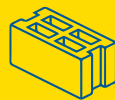

65% less

Magnesia

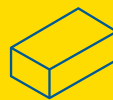

## APPLICATIONS

Autoclaved Aerated Concrete

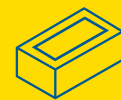

Hollow Blocks

Solid Blocks

Paving Blocks

Fly Ash Bricks

## \*STANDARDS FOR PPC

Initial Setting Time (Min)	30 Min
Final Setting Time (Max)	600 Min
Fineness (Min)	300 M <sup>2</sup> /kg
Loss on ignition (Max)	5%

Soundness (Max)	10 mm
Magnesia (Max)	6%
Alkali (Max)	0.60%
